SUBJECT INDEX—VOLUME 73

E = Editorial; CPC = Clinicopathologic Conference; MSS = Medicine, Science and Society; CCBSS = Combined Clinical and Basic Science Seminars

AA protein
Amyloidosis associated with renal cell carcinoma of the AA type, 426
Abdominal disease
Intra-abdominal malignancy and fasting hypoglycemia (CPC), 596
Absenteeism
Absenteeism and labelling in hypertensive subjects. Prevention of an adverse impact in those at high risk, 165
Academic institutions
Cheating by medical students on examinations (MSS), 160
Acanthosis nigricans
Impaired insulin degradation in a patient with insulin resistance and acanthosis nigricans, 148
Acetylator phenotype
Desensitization of patients with inflammatory bowel disease to sulfasalazine, 520
Acidosis
Chronic acidosis with metabolic bone disease. Effect of alkali on bone morphology and vitamin D metabolism, 199
ACTH
Activation of virilizing adrenal rest tissues by excessive ACTH production. An unusual presentation of Nelson's syndrome, 455
Primary empty sella syndrome, ACTH hypersecretion, and normal adrenocortical function. Report of two cases, 449
Acute abdomen
Acute abdominal complications of systemic lupus erythematosus and polyarteritis nodosa, 525
Acute rejection
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Acute renal failure
Acute renal failure. Multivariate analysis of causes and risk factors, 211
Acute tubular necrosis
Acute renal failure. Multivariate analysis of causes and risk factors, 211
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Adenocarcinoma
Intra-abdominal malignancy and fasting hypoglycemia (CPC), 596
Adrenal gland
Activation of virilizing adrenal rest tissues by excessive ACTH production. An unusual presentation of Nelson's syndrome, 455
Adrenal metastases
Intra-abdominal malignancy and fasting hypoglycemia (CPC), 596
Adrenal tumor
Persistent hypertension after resection of a pheochromocytoma (CPC), 97
Adrenocortical function
Primary empty sella syndrome, ACTH hypersecretion, and normal adrenocortical function. Report of two cases, 449
Adult respiratory distress syndrome
Cardiovascular alterations in the adult respiratory distress syndrome, 25
Age
Circadian blood pressure patterns in ambulatory hypertensive patients. Effects of age, 493
Alcoholism
Alcoholism as a risk factor in methadone maintenance. A randomized controlled trial, 631
Aldosterone
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Persistent hypertension after resection of a pheochromocytoma (CPC), 97
Alkali
Chronic acidosis with metabolic bone disease. Effect of alkali on bone morphology and vitamin D metabolism, 199
Allografting
Improving utility of renal transplantation in the management of end-stage renal disease, 105
Alpha-chain disease
Diffuse follicular lymphoid hyperplasia of the small intestine without primary immunoglobulin deficiency, 125
Altitude
Pathophysiology of acute high-altitude illness, 395
Ambulatory care
Content and process in ambulatory care, 735
Ambulatory monitoring
Circadian blood pressure patterns in ambulatory hypertensive patients. Effects of age, 493
Amikacin
Empiric antibiotic therapy for suspected infection in granulocytopenic cancer patients. Comparison between combination moxalactam plus amikacin and ticarcillin plus amikacin, 89
Aminocaproic acid
Successful treatment of skeletal hemangioma and Kasabach-Merritt syndrome with aminocaproic acid. Is fibrinolysis "defensive"? 434

Amoxicillin
Single-dose amoxicillin therapy with follow-up urine culture. Effective initial management for acute uncomplicated urinary tract infections, 808
Amphotericin B
Aspergillus osteomyelitis. Report of four cases and review of the literature, 295
Amyloid
Pericardial tamponade, a new complication of amyloid heart disease, 133
Amyloidosis
Amyloidosis associated with renal cell carcinoma of the AA type, 426
Familial renal amyloidosis. Case reports and genetic studies, 609
Anemia
Alveolar macrophage dysfunction in human bone marrow transplant recipients, 859
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Geomelophagia. An unusual pica in iron-deficiency anemia, 931
Giant cell arteritis and microangiopathic hemolytic anemia, 928
Left elbow pain and death in a young woman with sickle-cell anemia (CPC), 268
Thyroid dysfunction among long-term survivors of bone marrow transplantation, 688
Aneurysm
Myocardial rupture after myocardial infarction. Detection by multi-gated image-acquisition scintigraphy, 765
Angina
Hyperthyroxinemia in patients treated with high-dose propanolol, 867
Serum estrogen levels in men with acute myocardial infarction, 872
Therapeutic and economic value of a normal coronary angiogram, 500
Angiography
Factors associated with correct antemortem diagnosis of major pulmonary embolism, 822
Therapeutic and economic value of a normal coronary angiogram, 500
Angiosarcoma
Hepatic angiosarcoma associated with short-term arsenic ingestion, 933
Angiotensin-converting enzyme
Angiotensin-converting enzyme in diseases of the liver, 549
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Ankylosing spondylitis
Ankylosing spondylitis: an important cause of severe disturbances of the cardiac conduction system. Prevalence among 223 pacemaker-treated men, 187
Cardiac conduction abnormalities in Reiter's syndrome, 335
Anosmia
Syndrome of anosmia with hypogonadotropic hypogonadism (Kallmann syndrom). Clinical and laboratory studies in 23 cases, 506
Antibiotic therapy
Association between serum inhibitory and bactericidal concentrations and therapeutic outcome in bacterial endocarditis, 260
Empiric antibiotic therapy for suspected infection in granulocytopenic cancer patients. Comparison between the combination of moxalactam plus amikacin and ticarcillin plus amikacin, 89
Impact of an educational program on gentamicin use in a teaching hospital, 9
Single-dose amoxicillin therapy with follow-up urine culture. Effective initial management for acute uncomplicated urinary tract infections, 808
Antibody
Characterization of B-cell type chronic lymphocytic leukemia cells by surface markers and a monoclonal antibody, 802
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Immune complexes in primary biliary cirrhosis. Higher prevalence of circulating immune complexes in patients with associated autoimmune features, 192
Nosocomial hepatitis A transmission by an adult patient with diarrhea, 220
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Zoster encephalitis. Isolation of virus and measurement of varicella-zoster-specific antibodies in cerebrospinal fluid, 769
Anticoagulation
Prostacyclin substitution for heparin in long-term hemodialysis, 669
Antigen
Aspergillus antigen detection in bronchoalveolar lavage fluid from patients with invasive aspergillosis and aspergillomas, 372
Anti-hepatitis A antibody
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Antihypertensive medication
Habitual excessive dietary salt intake and blood pressure levels in renal transplant recipients, 205
Antimicrobial therapy
Superinfection: another look, 706

Aortic regurgitation
Osteogenic sarcoma metastatic to the heart, 136
Aplastic anemia
Epstein-Barr virus-induced diseases in boys with the X-linked lymphoproliferative syndrom (XLP). Update on studies of the registry, 49
Apnea
Cardiac arrhythmias and conduction disturbances in the sleep apnea syndrome. Prevalence and significance, 317
Effect of flurazepam on sleep-disordered breathing and nocturnal oxygen desaturation in asymptomatic subjects, 239
ARDS
Cardiovascular alterations in the adult respiratory distress syndrome, 25
Arrhythmia
Ankylosing spondylitis: an important cause of severe disturbances of the cardiac conduction system. Prevalence among 223 pacemaker-treated men, 187
Cardiac arrhythmias and conduction disturbances in the sleep apnea syndrome. Prevalence and significance, 317
Value and limitations of clinical electrophysiologic study in assessment of patients with unexplained syncope, 700
Ventricular ectopy: etiology, evaluation, and therapy, 899
Arsenic
Hepatic angiosarcoma associated with short-term arsenic ingestion, 933
Arterial narrowing
Relation of serum total cholesterol and triglyceride levels to the amount and extent of coronary arterial narrowing by atherosclerosis plaque in coronary heart disease. Quantitative analysis of 2,037 5-mm segments of 160 major epicardial coronary arteries in 40 necropsy patients, 227
Arteriography
Therapeutic and economic value of a normal coronary angiogram, 500
Arteritis
Giant cell arteritis and microangiopathic hemolytic anemia, 928
Arthritis
Pulmonary insufficiency in a 66 year old man with rheumatoid arthritis (CPC), 404
Artificial ventilation
Clinical manifestations of inspiratory muscle fatigue, 308
Aspergillus
Aspergillus antigen detection in bronchoalveolar lavage fluid from patients with invasive aspergillosis and aspergillomas, 372
Aspergillus osteomyelitis. Report of four cases and review of the literature, 295
Fungal infections in patients with acute leukemia, 543
Aspiration biopsy
Fine-needle aspiration biopsy of thyroid nodules. Impact on thyroid practice and cost of care, 381
Asthenia
Asthenia in cancer (E), 1
Atherosclerosis
Treatment of hyperlipidemias: where do we stand? (E), 301
Atherosclerotic plaque
Relation of serum total cholesterol and triglyceride levels to the amount and extent of coronary arterial narrowing by atherosclerosis plaque in coronary heart disease. Quantitative analysis of 2,037 5-mm segments of 160 major epicardial coronary arteries in 40 necropsy patients, 227
Atmospheric pressure
Pathophysiology of acute high-altitude illness, 395
Atrial septal defect
Hemodynamic effects of vasodilator therapy in severe left heart failure combined with large atrial septal defects, 439
Atrioventricular valve
Atrioventricular valve replacement in idiopathic hypereosinophilic syndrome, 77
Autoantibody
Immune regulatory abnormalities produced by procainamide, 487
Autoimmune disease
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Immune complexes in primary biliary cirrhosis. Higher prevalence of circulating immune complexes in patients with associated autoimmune features, 192
Autoimmune hemolytic anemia
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Autonomic function
Increased plasma catecholamine levels in patients with symptomatic mitral valve prolapse, 783
Azotemia
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Bacteremia
Bacteremia and the heart. Serial echocardiographic findings in 80 patients with documented or suspected bacteremia, 851
Staphylococcus aureus bacteremia in diabetic patients. Endocarditis and mortality, 658
Bacterial endocarditis
Association between serum inhibitory and bactericidal concentrations and therapeutic outcome in bacterial endocarditis, 260

Bacterial infection
Bacteremia and the heart. Serial echocardiographic findings in 80 patients with documented or suspected bacteremia, 851
Disseminated listeriosis presenting as acute hepatitis. Case reports and review of hepatic involvement in listeriosis, 773
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791

Nosocomial hepatitis A transmission by an adult patient with diarrhea, 220
(*Continued on next page*)

Hepatitis A (cont'd.)
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Hepatoma
Hepatomas: hormone receptors and therapy, 362
Heroin
Alcoholism as a risk factor in methadone maintenance. A randomized controlled trial, 631
Herpes simplex
Herpes simplex type 2 virus encephalitis presenting as psychosis, 445
Specific cell-mediated immunity and infections with herpes viruses in cardiac transplant recipients, 679
Herpes viruses
Specific cell-mediated immunity and infections with herpes viruses in cardiac transplant recipients, 679
Herpes zoster
Herpes zoster in patients with carcinoma of the lung, 795
High-altitude illness
Pathophysiology of acute high-altitude illness, 395
Histidine-rich glycoprotein
Reduced histidine-rich glycoprotein levels in plasma of patients with advanced liver cirrhosis. Possible implications for enhanced fibrinolysis, 179
Histomorphometry
Chronic acidosis with metabolic bone disease. Effect of alkali on bone morphology and vitamin D metabolism, 199
HLA antigens
Familial renal amyloidosis. Case reports and genetic studies, 609
HLA B27
Ankylosing spondylitis: an important cause of severe disturbances of the cardiac conduction system. Prevalence among 223 pacemaker-treated men, 187
Cardiac conduction abnormalities in Reiter's syndrome, 335
Hodgkin's disease
Acquired Gaucher's cells in Hodgkin's disease, 290
Testicular dysfunction in untreated Hodgkin's disease, 482
Homosexual men
Immunologic abnormalities in homosexual men. Relationship to Kaposi's sarcoma, 171
Honesty
Cheating by medical students on examinations (MSS), 160
Hormone receptors
Hepatomas: hormone receptors and therapy, 362
Hydralazine
Hemodynamic effects of vasodilator therapy in severe left heart failure combined with large atrial septal defects, 439
Hypercalcemia
Humoral hypercalcemia of malignancy: a syndrome in search of a hormone, 751
Hypercapnia
Clinical manifestations of inspiratory muscle fatigue, 308
Hyperchloremic acidosis
Chronic acidosis with metabolic bone disease. Effect of alkali on bone morphology and vitamin D metabolism, 199
Hypereosinophilic syndrome
Atrioventricular valve replacement in the idiopathic hypereosinophilic syndrome, 77
Hyperestrogenemia
Coronary risk factors and plasma sex hormones, 648
Serum estrogen levels in men with acute myocardial infarction, 872
Hyperglycemia
General practice care of non-insulin-dependent diabetes with fasting blood glucose measurements, 637
Hyperinsulinemia
Impaired insulin degradation in a patient with insulin resistance and acanthosis nigricans, 148
Hyperkalemia
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Our national obsession with potassium (E), 155
Hyperlipidemia
Treatment of hyperlipidemias: where do we stand? (E), 301
Hypernatremia
Hypodipsia in geriatric patients, 354
Hypernephroma
Amyloidosis associated with renal cell carcinoma of the AA type, 426
Humoral hypercalcemia of malignancy: a syndrome in search of a hormone, 751
Hyperparathyroidism
Peptide hormone markers in screening for endocrine tumors in multiple endocrine adenomatosis type I, 619
Hyperplasia
Diffuse follicular lymphoid hyperplasia of the small intestine without primary immunoglobulin deficiency, 125
Hyperplastic lymphadenopathy
Immunologic abnormalities in homosexual men. Relationship to Kaposi's sarcoma, 171
Hypertension
Absenteeism and labelling in hypertensive subjects. Prevention of an adverse impact in those at high risk, 165
Acute renal failure. Multivariate analysis of causes and risk factors, 211
Circadian blood pressure patterns in ambulatory hypertensive patients. Effects of age, 493
Effect of coffee and cigarette smoking on the blood pressure of untreated and diuretic-treated hypertensive patients, 348
Habitual excessive dietary salt intake and blood pressure levels in renal transplant recipients, 205

Hypertension (cont'd.)
Hemodynamic and endocrine changes associated with captopril in diuretic-resistant hypertensive patients, 341
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Persistent hypertension after resection of a pheochromocytoma (CPC), 97
Pulmonary hypertension and cor pulmonale in the sickle hemoglobinopathies, 814
Renal vascular lesions after chemotherapy with vinblastine, bleomycin, and cisplatin, 429
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Hypertension, portal
Liver disease in Felty's syndrome, 35
Hyperthyroidism
Hyperthyroxinemia in patients treated with high-dose propanolol, 867
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Hyperthyroxinemia
Euthyroid familial hyperthyroxinemia due to abnormal thyroid hormone-binding protein, 283
Hyperthyroxinemia in patients treated with high-dose propanolol, 867
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Hypobaric hypoxia
Pathophysiology of acute high-altitude illness, 395
Hypodipsia
Hypodipsia in geriatric patients, 354
Hypogammaglobulinemia
Epstein-Barr virus-induced diseases in boys with the X-linked lymphoproliferative syndrome (XLP). Update on studies of the registry, 49
Hypoglycemia
Intra-abdominal malignancy and fasting hypoglycemia (CPC), 596
Hypogonadism
Syndrome of anosmia with hypogonadotropic hypogonadism (Kallmann syndrom). Clinical and laboratory studies in 23 cases, 506
Hypogonadotropic hypogonadism
Syndrome of anosmia with hypogonadotropic hypogonadism (Kallmann syndrom). Clinical and laboratory studies in 23 cases, 506
Hypokalemia
Our national obsession with potassium (E), 155
Surreptitious diuretic ingestion and pseudo-Bartter's syndrome, 142
Hypothalamus
Syndrome of anosmia with hypogonadotropic hypogonadism (Kallmann syndrom). Clinical and laboratory studies in 23 cases, 506
Hypothyroidism
Early peripheral responses to intravenous L-thyroxine in primary hypothyroidism, 467
Hypothyroidism (cont'd.)
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Thyroid dysfunction among long-term survivors of bone marrow transplantation, 688
Hypoxia
Pathophysiology of acute high-altitude illness, 395
IgE
Combined neutrophil and T-cell deficiency. Initial report of a kindred with features of the hyper-IgE syndrome and chronic granulomatous disease, 63
IgG
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Immune regulatory abnormalities produced by procainamide, 487
Zoster encephalitis. Isolation of virus and measurement of varicella-zoster-specific antibodies in cerebrospinal fluid, 769
IgM
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Immune complexes
Immune complexes in primary biliary cirrhosis. Higher prevalence of circulating immune complexes in patients with associated autoimmune features, 192
Immune response
Role of opsonins in clinical response to granulocyte transfusion in granulocytopenic patients, 552
Specific cell-mediated immunity and infections with herpes viruses in cardiac transplant recipients, 679
Immunity
Combined neutrophil and T-cell deficiency. Initial report of a kindred with features of the hyper-IgE syndrome and chronic granulomatous disease, 63
Flow cytometry analysis of T lymphocytes in sarcoidosis, 82
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Immune regulatory abnormalities produced by procainamide, 487
Immunologic abnormalities in homosexual men. Relationship to Kaposi's sarcoma, 171
Mycobacterium fortuitum infection: evidence of bactericidal defect due to hyperactive antigen-specific suppressor cells. Correction in vitro and in vivo by cholinergic agonist and indomethacin, 756

Immunocompromise
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Superinfection: another look, 706
Immunodeficiency
Epstein-Barr virus-induced diseases in boys with the X-linked lymphoproliferative syndrome (XLP). Update on studies of the registry, 49
Immunoelectrophoresis
Reduced histidine-rich glycoprotein levels in plasma of patients with advanced liver cirrhosis. Possible implications for enhanced fibrinolysis, 179
Immunofluorescence
Herpes simplex type 2 virus encephalitis presenting as psychosis, 445
Immunoglobulin
Combined neutrophil and T-cell deficiency. Initial report of a kindred with features of the hyper-IgE syndrome and chronic granulomatous disease, 63
Diffuse follicular lymphoid hyperplasia of the small intestine without primary immunoglobulin deficiency, 125
Immunoregulation
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Immune regulatory abnormalities produced by procainamide, 487
Immunosuppression
Aspergillus antigen detection in bronchoalveolar lavage fluid from patients with invasive aspergillosis and aspergillomas, 372
Aspergillus osteomyelitis. Report of four cases and review of the literature, 295
^{111}Indium
Cerebrospinal fluid flow abnormalities in patients with neoplastic meningitis. An evaluation using ^{111}indium-DTPA ventriculography, 641
Indomethacin
Mycobacterium fortuitum infection: evidence of bactericidal defect due to hyperactive antigen-specific suppressor cells. Correction in vitro and in vivo by cholinergic agonist and indomethacin, 756
Infection
Alveolar macrophage dysfunction in human bone marrow transplant recipients, 859
Aspergillus antigen detection in bronchoalveolar lavage fluid from patients with invasive aspergillosis and aspergillomas, 372
Aspergillus osteomyelitis. Report of four cases and review of the literature, 295
Association between serum inhibitory and bactericidal concentrations and therapeutic outcome in bacterial endocarditis, 260
Bacteremia and the heart. Serial echocardiographic findings in 80 patients with documented or suspected bacteremia, 851
Infection (cont'd.)
Disseminated listeriosis presenting as acute hepatitis. Case reports and review of hepatic involvement in listeriosis, 773
Empiric antibiotic therapy for suspected infection in granulocytopenic cancer patients. Comparison between the combination of moxalactam plus amikacin and ticarcillin plus amikacin, 89
Fulminant soft tissue infection in an elderly man with leukemia (CPC), 726
Fungal infections in patients with acute leukemia, 543
Herpes simplex type 2 virus encephalitis presenting as psychosis, 445
Herpes zoster in patients with carcinoma of the lung, 795
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Legionnaires' disease: new clinical perspective from a prospective pneumonia study, 357
Mycobacterium fortuitum infection: evidence of bactericidal defect due to hyperactive antigen-specific suppressor cells. Correction in vitro and in vivo by cholinergic agonist and indomethacin, 756
Nosocomial pseudomonas cepacia infection associated with chlorhexidine contamination, 183
Quinine pharmacokinetics and toxicity in cerebral and uncomplicated falciparum malaria, 564
Role of opsonins in clinical response to granulocyte transfusion in granulocytopenic patients, 552
Single-dose amoxicillin therapy with follow-up urine culture. Effective initial management for acute uncomplicated urinary tract infections, 808
Specific cell-mediated immunity and infections with herpes viruses in cardiac transplant recipients, 679
Staphylococcus aureus bacteremia in diabetic patients. Endocarditis and mortality, 658
Superinfection: another look, 706
Total parenteral nutrition-related infections. Prospective epidemiologic study using semiquantitative methods, 695
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Zoster encephalitis. Isolation of virus and measurement of varicella-zoster-specific antibodies in cerebrospinal fluid, 769
Infectious mononucleosis
Epstein-Barr virus-induced diseases in boys with the X-linked lymphoproliferative syndrome (XLP). Update on studies of the registry, 49
Inflammatory bowel disease
Desensitization of patients with inflammatory bowel disease to sulfasalazine, 520
Information sources
Scientific versus commercial sources of influence on the prescribing behavior of physicians (MSS), 4
Informed consent
Randomized controlled clinical trial. Scientific and ethical bases, 420
Inheritance
Combined neutrophil and T-cell deficiency. Initial report of a kindred with features of the hyper-IgE syndrome and chronic granulomatous disease, 63
Euthyroid familial hyperthyroxinemia due to abnormal thyroid hormone-binding protein, 283

Injection
Nosocomial hepatitis A transmission by an adult patient with diarrhea, 220
Inspiratory muscle fatigue
Clinical manifestations of inspiratory muscle fatigue, 308
Insulin
Impaired insulin degradation in a patient with insulin resistance and acanthosis nigricans, 148
Insulin-dependent diabetes mellitus
Echocardiographic evidence for impaired myocardial performance in children with type I diabetes mellitus, 846
Insulin resistance
Non-insulin-dependent diabetes mellitus: interplay between B-cell inadequacy and insulin resistance (E), 461
Interstitial fibrosis
Pulmonary insufficiency in a 66 year old man with rheumatoid arthritis (CPC), 404
Intestinal perforation
Acute abdominal complications of systemic lupus erythematosus and polyarteritis nodosa, 525
Intravascular volume
High uric acid and urea clearance in cirrhosis secondary to increased "effective vascular volume", 328
Intubation
Massive hemoptysis in a young man with myasthenia gravis and thymoma (CPC), 914
Iron-deficiency anemia
Geomelophagia. An unusual pica in iron-deficiency anemia, 931

Irradiation
Herpes zoster in patients with carcinoma of the lung, 795
Thyroid dysfunction among long-term survivors of bone marrow transplantation, 688
Treatment of sarcoid meningitis with radiotherapy, 605
Isosorbide dinitrate
Hemodynamic effects of vasodilator therapy in severe left heart failure combined with large atrial septal defects, 439
High uric acid and urea clearance in cirrhosis secondary to increased "effective vascular volume", 328
Jaundice
Angiotensin-converting enzyme in diseases of the liver, 549
Kallikrein
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Kallmann syndrome

Quinine pharmacokinetics and toxicity in cerebral and uncomplicated falciparum malaria, 564
Platelets
Prostacyclin substitution for heparin in long-term hemodialysis, 669
Pneumonia
Factors associated with correct antemortem diagnosis of major pulmonary embolism, 822
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Legionnaires' disease: new clinical perspective from a prospective pneumonia study, 357
Pulmonary insufficiency in a 66 year old man with rheumatoid arthritis (CPC), 404
Polyarteritis nodosa
Acute abdominal complications of systemic lupus erythematosus and polyarteritis nodosa, 525
Polymorphonuclear leukocytes
Folic acid deficiency and neutrophil dysfunction, 652
Positron tomography
Temporal dependence of beneficial effects of coronary thrombolysis characterized by positron tomography, 573
Potassium
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Our national obsession with potassium (E), 155
Potatoes
Geomelophagia. An unusual pica in iron-deficiency anemia, 931

Practice of medicine
A convenient approximation of life expectancy (the "DEALE"), 883
A convenient approximation of life expectancy (the "DEALE"), 889

The generalist: a jaundiced view, XIII (MSS), 465
The generalist: a jaundiced view, XIV (MSS), 617
The generalist: a jaundiced view, XV (MSS), 781
Prednisone
Giant cell arteritis and microangiopathic hemolytic anemia, 928
Preleukemic syndrome
Bone marrow mast cell content in preleukemic syndrome, 539
Prescribing behavior
Impact of an educational program on gentamicin use in a teaching hospital, 9
Our national obsession with potassium (E), 155
Scientific versus commercial sources of influence on the prescribing behavior of physicians (MSS), 4
Pressor response
Effect of coffee and cigarette smoking on the blood pressure of untreated and diuretic-treated hypertensive patients, 348
Independent roles of prostaglandins and the renin-angiotensin system in abnormal vascular reactivity in Bartter's syndrome, 71
Presyncope
Value and limitations of clinical electrophysiologic study in assessment of patients with unexplained syncope, 700
Primary hypothyroidism
Early peripheral responses to intravenous L-thyroxine in primary hypothyroidism, 467
Problem-solving
Toward a theory of clinical expertise, 251
Procainamide
Immune regulatory abnormalities produced by procainamide, 487
Procarbazine
Herpes zoster in patients with carcinoma of the lung, 795
Progestin therapy
Hepatomas: hormone receptors and therapy, 362
Prognosis
A convenient approximation of life expectancy (the "DEALE"), 883
A convenient approximation of life expectancy (the "DEALE"), 889
Progressive systemic sclerosis
Trigeminal neuropathy in progressive systemic sclerosis, 57
Prolactinoma
Peptide hormone markers in screening for endocrine tumors in multiple endocrine adenomatosis type I, 619
Propanolol
Hyperthyroxinemia in patients treated with high-dose propanolol, 867
Prophylaxis
Impact of an educational program on gentamicin use in a teaching hospital, 9
Prostacyclin
Prostacyclin substitution for heparin in long-term hemodialysis, 669
Prostaglandins
Independent roles of prostaglandins and the renin-angiotensin system in abnormal vascular reactivity in Bartter's syndrome, 71
Protein-calorie malnutrition
Folic acid deficiency and neutrophil dysfunction, 652
Pseudohyperparathyroidism
Humoral hypercalcemia of malignancy: a syndrome in search of a hormone, 751
Pseudomonas cepacia
Nosocomial pseudomonas cepacia infection associated with chlorhexidine contamination, 183
Psychiatric disorders
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Psychogenic episode
Evaluation and outcome of emergency room patients with transient loss of consciousness, 15
Psychosis
Herpes simplex type 2 virus encephalitis presenting as psychosis, 445
Pulmonary disease
Alveolar macrophage dysfunction in human bone marrow transplant recipients, 859
Aspergillus antigen detection in bronchoalveolar lavage fluid from patients with invasive aspergillosis and aspergillomas, 372
Flow cytometry analysis of T lymphocytes in sarcoidosis, 82
Herpes zoster in patients with carcinoma of the lung, 795
IgM and IgG antibody response in two immunosuppressed patients with Legionnaires' disease. Evidence of reactivation of latent infection, 791
Legionnaires' disease: new clinical perspective from a prospective pneumonia study, 357
Pulmonary embolism
Factors associated with correct antemortem diagnosis of major pulmonary embolism, 822
Pulmonary function
Acute respiratory failure in scoliosis or kyphosis. Prolonged survival and treatment, 532
Cardiovascular alterations in the adult respiratory distress syndrome, 25
Serial pulmonary function in systemic sclerosis, 385
Pulmonary hypertension
Pulmonary hypertension and cor pulmonale in the sickle hemoglobinopathies, 814
Pulmonary insufficiency
Pulmonary insufficiency in a 66 year old man with rheumatoid arthritis (CPC), 404
Purpura
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Quinine
Quinine pharmacokinetics and toxicity in cerebral and uncomplicated falciparum malaria, 564
Radioimmunoassay
Aspergillus antigen detection in bronchoalveolar lavage fluid from patients with invasive aspergillosis and aspergillomas, 372
Immune complexes in primary biliary cirrhosis. Higher prevalence of circulating immune complexes in patients with associated autoimmune features, 192
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Radionuclide study
Myocardial rupture after myocardial infarction. Detection by multi-gated image-acquisition scintigraphy, 765
Radiotherapy
Response in oncology (E), 779
Treatment of sarcoid meningitis with radiotherapy, 605
Randomized trial
Randomized controlled clinical trial. Scientific and ethical bases, 420
Reiter's syndrome
Cardiac conduction abnormalities in Reiter's syndrome, 335
Renal cell carcinoma
Amyloidosis associated with renal cell carcinoma of the AA type, 426
Renal disease
Familial renal amyloidosis. Case reports and genetic studies, 609
Improving utility of renal transplantation in the management of end-stage renal disease, 105
Prostacyclin substitution for heparin in long-term hemodialysis, 669
Renal failure
Acute renal failure. Multivariate analysis of causes and risk factors, 211
Renal vascular lesions after chemotherapy with vinblastine, bleomycin, and cisplatin, 429
Renal function
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Plasma inhibitor of glomerular fibrinolysis in the hemolytic-uremic syndrome, 322
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Renal transplantation
Habitual excessive dietary salt intake and blood pressure levels in renal transplant recipients, 205
Renal vein
Persistent hypertension after resection of a pheochromocytoma (CPC), 97

Renin-angiotensin system
Circadian blood pressure patterns in ambulatory hypertensive patients. Effects of age, 493
Hemodynamic and endocrine changes associated with captopril in diuretic-resistant hypertensive patients, 341
Hyperkalemia in azotemic patients during angiotensin-converting enzyme inhibition and aldosterone reduction with captopril, 719
Independent roles of prostaglandins and the renin-angiotensin system in abnormal vascular reactivity in Bartter's syndrome, 71
Persistent hypertension after resection of a pheochromocytoma (CPC), 97
Renal vascular lesions after chemotherapy with vinblastine, bleomycin, and cisplatin, 429
Renovascular lesion
Renal vascular lesions after chemotherapy with vinblastine, bleomycin, and cisplatin, 429
Reperfusion
Temporal dependence of beneficial effects of coronary thrombolysis characterized by positron tomography, 573
Respiration
Early peripheral responses to intravenous L-thyroxine in primary hypothyroidism, 467
Respiratory distress
Cardiovascular alterations in the adult respiratory distress syndrome, 25
Respiratory failure
Acute respiratory failure in scoliosis or kyphosis. Prolonged survival and treatment, 532
Respiratory function
Cardiac arrhythmias and conduction disturbances in the sleep apnea syndrome. Prevalence and significance, 317
Clinical manifestations of inspiratory muscle fatigue, 308
Effect of flurazepam on sleep-disordered breathing and nocturnal oxygen desaturation in asymptomatic subjects, 239
Massive hemoptysis in a young man with myasthenia gravis and thymoma (CPC), 914
Restrictive lung disease
Serial pulmonary function in systemic sclerosis, 385
Rheumatic disease
Ankylosing spondylitis: an important cause of severe disturbances of the cardiac conduction system. Prevalence among 223 pacemaker-treated men, 187
Cardiac conduction abnormalities in Reiter's syndrome, 335
Liver disease in Felty's syndrome, 35
Pulmonary insufficiency in a 66 year old man with rheumatoid arthritis (CPC), 404
Risk factors
Acute renal failure. Multivariate analysis of causes and risk factors, 211
Risk factors (cont'd.)
Alcoholism as a risk factor in methadone maintenance. A randomized controlled trial, 631
Bacteremia and the heart. Serial echocardiographic findings in 80 patients with documented or suspected bacteremia, 851
Coronary risk factors and plasma sex hormones, 648
Rupture
Myocardial rupture after myocardial infarction. Detection by multi-gated image-acquisition scintigraphy, 765
Sacroiliitis
Ankylosing spondylitis: an important cause of severe disturbances of the cardiac conduction system. Prevalence among 223 pacemaker-treated men, 187
Salt intake
Habitual excessive dietary salt intake and blood pressure levels in renal transplant recipients, 205
Salt retention
High uric acid and urea clearance in cirrhosis secondary to increased "effective vascular volume", 328
Sarcoidosis
Flow cytometry analysis of T lymphocytes in sarcoidosis, 82
Treatment of sarcoid meningitis with radiotherapy, 605
Sarcoma
Hepatic angiosarcoma associated with short-term arsenic ingestion, 933
Osteogenic sarcoma metastatic to the heart, 136
Scintigraphy
Myocardial rupture after myocardial infarction. Detection by multi-gated image-acquisition scintigraphy, 765
Scleroderma
Serial pulmonary function in systemic sclerosis, 385
Trigeminal neuropathy in progressive systemic sclerosis, 57
Scoliosis
Acute respiratory failure in scoliosis or kyphosis. Prolonged survival and treatment, 532
Screening
Absenteeism and labelling in hypertensive subjects. Prevention of an adverse impact in those at high risk, 165
Genetic predisposition to cancer in man. Advantages and problems of central registration and screening of families at risk (MSS), 305
Seizure
Evaluation and outcome of emergency room patients with transient loss of consciousness, 15
Sepsis
Nosocomial pseudomonas cepacia infection associated with chlorhexidine contamination, 183
Serratia marcescens
Total parenteral nutrition-related infections. Prospective epidemiologic study using semiquantitative methods, 695
Sex hormones
Coronary risk factors and plasma sex hormones, 648
Hepatomas: hormone receptors and therapy, 362
Syndrome of anosmia with hypogonadotropic hypogonadism (Kallmann syndrom). Clinical and laboratory studies in 23 cases, 506
Sickle-cell anemia
Left elbow pain and death in a young woman with sickle-cell anemia (CPC), 268
Sicklemia
Pulmonary hypertension and cor pulmonale in the sickle hemoglobinopathies, 814
Sinus rhythm
Is digoxin really important in treatment of compensated heart failure? Placebo-controlled crossover study in patients with sinus rhythm, 244
Skeletal hemangioma
Successful treatment of skeletal hemangioma and Kasabach-Merritt syndrome with aminocaproic acid. Is fibrinolysis "defensive"? 434
Skeletal muscle disease
Cardiac function in Duchenne's muscular dystrophy. Results of 10-year follow-up study and noninvasive tests, 235
Sleep apnea
Cardiac arrhythmias and conduction disturbances in the sleep apnea syndrome. Prevalence and significance, 317
Effect of flurazepam on sleep-disordered breathing and nocturnal oxygen desaturation in asymptomatic subjects, 239
Sleep-disordered breathing
Effect of flurazepam on sleep-disordered breathing and nocturnal oxygen desaturation in asymptomatic subjects, 239
Small cell lung cancer
Randomized study of high-dose versus low-dose methotrexate in extensive small cell lung cancer, 413
Small intestine
Diffuse follicular lymphoid hyperplasia of the small intestine without primary immunoglobulin deficiency, 125
Sodium
Habitual excessive dietary salt intake and blood pressure levels in renal transplant recipients, 205
Specialization
Content and process in ambulatory care, 735
The generalist: a jaundiced view, XIII (MSS), 465
The generalist: a jaundiced view, XIV (MSS), 617
The generalist: a jaundiced view, XV (MSS), 781
Sperm
Testicular dysfunction in untreated Hodgkin's disease, 482
Spinal deformity
Acute respiratory failure in scoliosis or kyphosis. Prolonged survival and treatment, 532

Splenomegaly
Liver disease in Felty's syndrome, 35
Staphylococcus aureus
Staphylococcus aureus bacteremia in diabetic patients. Endocarditis and mortality, 658
Total parenteral nutrition-related infections. Prospective epidemiologic study using semiquantitative methods, 695
Staphylococcus epidermidis
Total parenteral nutrition-related infections. Prospective epidemiologic study using semiquantitative methods, 695
Statistical validity
Randomized controlled clinical trial. Scientific and ethical bases, 420
Streptokinase
Temporal dependence of beneficial effects of coronary thrombolysis characterized by positron tomography, 573
Sudden death
Relation of serum total cholesterol and triglyceride levels to the amount and extent of coronary arterial narrowing by atherosclerosis plaque in coronary heart disease. Quantitative analysis of 2,037 5-mm segments of 160 major epicardial coronary arteries in 40 necropsy patients, 227
Sulfapyridine
Desensitization of patients with inflammatory bowel disease to sulfasalazine, 520
Sulfasalazine
Desensitization of patients with inflammatory bowel disease to sulfasalazine, 520
Superinfection
Superinfection: another look, 706
Superior vena caval syndrome
Osteogenic sarcoma metastatic to the heart, 136
Suppressor cells
Immune regulatory abnormalities produced by procainamide, 487
Mycobacterium fortuitum infection: evidence of bactericidal defect due to hyperactive antigen-specific suppressor cells. Correction in vitro and in vivo by cholinergic agonist and indomethacin, 756
Surgery
Response in oncology (E), 779
Sympathetic function
Increased plasma catecholamine levels in patients with symptomatic mitral valve prolapse, 783
Syncope
Pulmonary hypertension and cor pulmonale in the sickle hemoglobinopathies, 814
Value and limitations of clinical electrophysiologic study in assessment of patients with unexplained syncope, 700
Systemic lupus erythematosus
Acute abdominal complications of systemic lupus erythematosus and polyarteritis nodosa, 525
Systemic lupus erythematosus (cont'd.)
Genetic factors predisposing to autoimmune diseases. Autoimmune hemolytic anemia, chronic thrombocytopenic purpura, and systemic lupus erythematosus, 827
Immune regulatory abnormalities produced by procainamide, 487
Systemic sclerosis
Serial pulmonary function in systemic sclerosis, 385
Trigeminal neuropathy in progressive systemic sclerosis, 57
Systolic time intervals
Cardiac function in Duchenne's muscular dystrophy. Results of 10-year follow-up study and noninvasive tests, 235
Early peripheral responses to intravenous L-thyroxine in primary hypothyroidism, 467
Tachycardia
Ventricular ectopy: etiology, evaluation, and therapy, 899
Tamponade
Pericardial tamponade, a new complication of amyloid heart disease, 133
T-cell deficiency
Combined neutrophil and T-cell deficiency. Initial report of a kindred with features of the hyper-IgE syndrome and chronic granulomatous disease, 63
T cells
Characterization of B-cell type chronic lymphocytic leukemia cells by surface markers and a monoclonal antibody, 802
Immune regulatory abnormalities produced by procainamide, 487
Immunologic abnormalities in homosexual men. Relationship to Kaposi's sarcoma, 171
Mycobacterium fortuitum infection: evidence of bactericidal defect due to hyperactive antigen-specific suppressor cells. Correction in vitro and in vivo by cholinergic agonist and indomethacin, 756
Temporal arteritis
Giant cell arteritis and microangiopathic hemolytic anemia, 928
Testis
Testicular dysfunction in untreated Hodgkin's disease, 482
Testosterone
Coronary risk factors and plasma sex hormones, 648
Testicular dysfunction in untreated Hodgkin's disease, 482
Therapeutic outcome
Association between serum inhibitory and bactericidal concentrations and therapeutic outcome in bacterial endocarditis, 260
Therapeutic trial
Randomized controlled clinical trial. Scientific and ethical bases, 420
Therapy
Response in oncology (E), 779
Thiazide
Surreptitious diuretic ingestion and pseudo-Bartter's syndrome, 142
Thirst
Hypodipsia in geriatric patients, 354
Thrombolysis
Temporal dependence of beneficial effects of coronary thrombolysis by positron tomography, 573
Thrombosis
Primary cerebral venous thrombosis in patients with cancer—a rarely diagnosed paraneoplastic syndrome. Report of three cases and review of the literature, 740
Thromboxane
Prostacyclin substitution for heparin in long-term hemodialysis, 669
Thymoma
Massive hemoptysis in a young man with myasthenia gravis and thymoma (CPC), 914
Thyroid
Fine-needle aspiration biopsy of thyroid nodules. Impact on thyroid practice and cost of care, 381
Thyroid function
Hyperthyroxinemia in patients treated with high-dose propanolol, 867
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Thyroid dysfunction among long-term survivors of bone marrow transplantation, 688
Thyroid hormone-binding protein
Euthyroid familial hyperthyroxinemia due to abnormal thyroid hormone-binding protein, 283
Thyrotoxicosis
Euthyroid familial hyperthyroxinemia due to abnormal thyroid hormone-binding protein, 283
Thyroxine
Euthyroid familial hyperthyroxinemia due to abnormal thyroid hormone-binding protein, 283
Hyperthyroxinemia in patients treated with high-dose propanolol, 867
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Ticarcillin
Empiric antibiotic therapy for suspected infection in granulocytopenic cancer patients. Comparison between the combination of moxalactam plus amikacin and ticarcillin plus amikacin, 89
T lymphocytes
Flow cytometry analysis of T lymphocytes in sarcoidosis, 82
Tomography
Temporal dependence of beneficial effects of coronary thrombolysis characterized by positron tomography, 573
Toxicity
Changing role of chemotherapy in treatment of head and neck cancer, 582
Quinine pharmacokinetics and toxicity in cerebral and uncomplicated falciparum malaria, 564
Tracheostomy
Massive hemoptysis in a young man with myasthenia gravis and thymoma (CPC), 914

Transaminase
Disseminated listeriosis presenting as acute hepatitis. Case reports and review of hepatic involvement in listeriosis, 773
Transfusion
Role of opsonins in clinical response to granulocyte transfusion in granulocytopenic patients, 552
Transplantation
Alveolar macrophage dysfunction in human bone marrow transplant recipients, 859
Habitual excessive dietary salt intake and blood pressure levels in renal transplant recipients, 205
Improving utility of renal transplantation in the management of end-stage renal disease, 105
Specific cell-mediated immunity and infections with herpes viruses in cardiac transplant recipients, 679
Thyroid dysfunction among long-term survivors of bone marrow transplantation, 688
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Trigeminal neuropathy
Trigeminal neuropathy in progressive systemic sclerosis, 57
Triglyceride
Relation of serum total cholesterol and triglyceride levels to the amount and extent of coronary arterial narrowing by atherosclerosis plaque in coronary heart disease. Quantitative analysis of 2,037 5-mm segments of 160 major epicardial coronary arteries in 40 necropsy patients, 227
Treatment of hyperlipidemias: where do we stand? (E), 301
Triiodothyronine
Hyperthyroxinemia in patients with acute psychiatric disorders, 41
Ulcerative colitis
Desensitization of patients with inflammatory bowel disease to sulfasalazine, 520
Urea
High uric acid and urea clearance in cirrhosis secondary to increased "effective vascular volume", 328
Uric acid
High uric acid and urea clearance in cirrhosis secondary to increased "effective vascular volume", 328
Urinary tract infection
Single-dose amoxicillin therapy with follow-up urine culture. Effective initial management for acute uncomplicated urinary tract infections, 808
Valve disease
Bacteremia and the heart. Serial echocardiographic findings in 80 patients with documented or suspected bacteremia, 851
Staphylococcus aureus bacteremia in diabetic patients. Endocarditis and mortality, 658
Valve disease (cont'd.)
Ventricular ectopy: etiology, evaluation, and therapy, 899
Varicella-zoster virus
Herpes zoster in patients with carcinoma of the lung, 795
Specific cell-mediated immunity and infections with herpes viruses in cardiac transplant recipients, 679
Zoster encephalitis. Isolation of virus and measurement of varicella-zoster-specific antibodies in cerebrospinal fluid, 769
Vascular access
Totally implanted system for intravenous chemotherapy in patients with cancer, 841
Vascular disease
Treatment of hyperlipidemias: where do we stand? (E), 301
Vascular occlusion
Pulmonary hypertension and cor pulmonale in the sickle hemoglobinopathies, 814
Vascular reactivity
Hemodynamic and endocrine changes associated with captopril in diuretic-resistant hypertensive patients, 341
Independent roles of prostaglandins and the renin-angiotensin system in abnormal vascular reactivity in Bartter's syndrome, 71
Vasculitis
Acute abdominal complications of systemic lupus erythematosus and polyarteritis nodosa, 525
Giant cell arteritis and microangiopathic hemolytic anemia, 928
Vasculopathy
Liver disease in Felty's syndrome, 35
Vasoconstriction
Hemodynamic and endocrine changes associated with captopril in diuretic-resistant hypertensive patients, 341
Vasodilatation
Hemodynamic and endocrine changes associated with captopril in diuretic-resistant hypertensive patients, 341
Hemodynamic effects of vasodilator therapy in severe left heart failure combined with large atrial septal defects, 439
Urinary kallikrein excretion after renal transplantation. Relationship to hypertension, graft source, and renal function, 475
Vegetations
Bacteremia and the heart. Serial echocardiographic findings in 80 patients with documented or suspected bacteremia, 851
Venous thrombosis
Primary cerebral venous thrombosis in patients with cancer—a rarely diagnosed paraneoplastic syndrome. Report of three cases and review of the literature, 740
Ventilation
Acute respiratory failure in scoliosis or kyphosis. Prolonged survival and treatment, 532
Clinical manifestations of inspiratory muscle fatigue, 308
Serial pulmonary function in systemic sclerosis, 385
Ventricular ectopy
Ventricular ectopy: etiology, evaluation, and therapy, 899
Ventricular tachycardia
Osteogenic sarcoma metastatic to the heart, 136
Ventriculography
Cerebrospinal fluid flow abnormalities in patients with neoplastic meningitis. An evaluation using ^{111}Indium-DTPA ventriculography, 641
Myocardial rupture after myocardial infarction. Detection by multi-gated image-acquisition scintigraphy, 765
Vinblastine
Renal vascular lesions after chemotherapy with vinblastine, bleomycin, and cisplatin, 429
Viral infection
Herpes simplex type 2 virus encephalitis presenting as psychosis, 445
Herpes zoster in patients with carcinoma of the lung, 795
Specific cell-mediated immunity and infections with herpes viruses in cardiac transpant recipients, 679
Use of conventional and IgM-specific radioimmunoassays for anti-hepatitis A antibody in an outbreak of hepatitis A, 663
Zoster encephalitis. Isolation of virus and measurement of varicella-zoster-specific antibodies in cerebrospinal fluid, 769
Virilizing adrenal rest tissues
Activation of virilizing adrenal rest tissues by excessive ACTH production. An unusual presentation of Nelson's syndrome, 455
Vital capacity
Serial pulmonary function in systemic sclerosis, 385
Vitamin D
Chronic acidosis with metabolic bone disease. Effect of alkali on bone morphology and vitamin D metabolism, 199
von Willebrand's disease
Estrogens and surgery in women with von Willebrand's disease, 367
Water-electrolyte balance
Early peripheral responses to intravenous L-thyroxine in primary hypothyroidism, 467
X-linked lymphoproliferative syndrome
Epstein-Barr virus-induced diseases in boys with the X-linked lymphoproliferative syndrome (XLP). Update on studies of the registry, 49

CONTENTS IN BRIEF

EDITORIAL

1 **Asthenia in Cancer**
Athanasios Theologides

MEDICINE, SCIENCE, AND SOCIETY

4 **Scientific versus Commercial Sources of Influence on the Prescribing Behavior of Physicians**
Jerry Avorn, Milton Chen, Robert Hartley

CLINICAL STUDIES

9 **The Impact of an Educational Program on Gentamicin Use in a Teaching Hospital**
Michael W. Johnson, William E. Mitch, Allen H. Heller, Reynold Spector

15 **Evaluation and Outcome of Emergency Room Patients with Transient Loss of Consciousness**
Susan C. Day, E. Francis Cook, Harris Funkenstein, Lee Goldman

25 **Cardiovascular Alterations in the Adult Respiratory Distress Syndrome**
Guy A. Zimmerman, Alan H. Morris, Marge Cengiz

35 **Liver Disease in Felty's Syndrome**
Carter Thorne, Murray B. Urowitz, Ian Wanless, Eva Roberts, Lawrence M. Blendis

41 **Hyperthyroxinemia in Patients with Acute Psychiatric Disorders**
Daniel I. Spratt, Allan Pont, Myrna B. Miller, I. Ross McDougall, Monika F. Bayer, William T. McLaughlin

49 **Epstein-Barr Virus-Induced Diseases in Boys with the X-Linked Lymphoproliferative Syndrome (XLP). Update on Studies of the Registry**
David T. Purtilo, Kiyoshi Sakamoto, Vanessa Barnabei, Janet Seeley, Thomas Bechtold, Geraldine Rogers, Joanne Yetz, Shinji Harada, and the XLP Collaborators

57 **Trigeminal Neuropathy in Progressive Systemic Sclerosis**
Dorothy A. Farrell, Thomas A. Medsger, Jr.

63 **Combined Neutrophil and T-Cell Deficiency. Initial Report of a Kindred with Features of the Hyper-IgE Syndrome and Chronic Granulomatous Disease**
Michael F. Robinson, Robert McGregor, Russell Collins, Kee Cheung

71 **Independent Roles of Prostaglandins and the Renin-Angiotensin System in Abnormal Vascular Reactivity in Bartter's Syndrome**
Toshiro Fujita, Katsuyukin Ando, Yuji Sato, Kamejiro Yamashita, Masayukin Nomura, Toshio Fukui

77 **Atrioventricular Valve Replacement in the Idiopathic Hypereosinophilic Syndrome**
John B. Harley, Charles L. McIntosh, John J. W. Kirklin, Barry J. Maron, John Gottdiener, William C. Roberts, Anthony S. Fauci

82 **Flow Cytometry Analysis of T Lymphocytes in Sarcoidosis**
Yves Pacheco, Geneviève Cordier, Max Perrin-Fayolle, Jean-Pierre Revillard

REPORT ON THERAPY
